SIGNED ACCEPTANCE TO THESE TERMS REQUIRED PRIOR TO SHIPMENT

Company/Customer Name: _____

Contact/Customer Name: _____

Phone: _____ PO: _____

Part Number: _____ Model Number: _____

Exchange Price: _____

Repair Allowance: _____ (75% of the Exchange Price)

Replacement Value: _____ (Outright Purchase Price)

The customer is responsible for freight, applicable customs fees and applicable taxes.

The customer will be billed the replacement value and upon the return of an acceptable replacement core credited the amount paid minus the Exchange Price.

In the case where the exchange core repair exceeds the repair allowance listed above the customer agrees to pay the difference of the repair minus the repair allowance. If the repair exceeds the replacement value then the core will be deemed unacceptable and the replacement value minus the exchange price paid will be required. Another core may be provided but must meet the repair requirement described with original repair time considered.

Exchange cores are required to be received by CE Avionics within 21 days of the exchange shipping date. Cores received after 21 days will be considered at the discretion of CE Avionics.

An acceptable exchange core is a completely assembled component that is the same part number and modification status as the exchange provided. The component must have the complete data tag that is legible and if applicable the modification plate. General condition inside and out should have no signs of impact, abnormal heat damage or have been overworked for past repair.

A purchased exchange unit that is returned within 10 days of the ship date may be subject to a 20% restock fee and/or a \$220.00 recertification fee.

As an authorized representative of the Company or Customer added above, the undersigned agrees to the conditions and terms stated in this agreement.
