Part Number _____
 Serial Number _____
 Description _____
 Exchange Price _____
 Repair Cap (75%) _____
 Core Fee _____

Billing

Customer agrees to pay the exchange price and all freight charges including any and all customs fees (if any) for this entire transaction. Exchange units returned for credit within 7 calendar days from date of shipment may be subject to a re-stocking fee of 20% of the exchange price or \$200.00 USD, whichever is greater. Exchange units may not be accepted after 7 days for credit at the discretion of CE Avionics, Inc.

The customer will be advised of the core fee. This core fee will represent the amount the customer will owe above and beyond the exchange price if no core unit is received or if a received core unit is deemed to be beyond economical repair. If the cost to repair the core unit exceeds the above stated 'Repair Cap' (75% of the Exchange Fee), it is agreed that the customer will be billed an additional exchange fee equaling the difference between the repair charge and repair cap. If the additional exchange fee exceeds or equals the core fee the core will be deemed to be beyond economical repair and the core will be billed to the customer at the original stated core fee amount.

Core Returns

All core units are to be returned to CE Avionics at 2789 Flightline Ave., Sanford, FL 32773 USA, unless stated otherwise. All core units must be returned within 14 days of original shipment date to receive a full Core Fee credit. All core units must be in 'As Removed from Aircraft' condition with original dataplate of same part number, model number and modification status as the exchange unit.

As an authorized representative of the above listed company, the undersigned agrees to all of the conditions set forth in this exchange agreement.
